1	Depron Foam Airframe with CF reinforcement, decals and markings
1	Hardware Kit (Motor mount, control horns, pushrods, ez-links, etc.)
1	Hinge Tape
3	Servos
1	Motor
1	ESC
1	Spinner
2	Racing Propellers
2	Combat Propellers
2	Batteries
1	LiPo Sack
1	Hard Hat
1	Charge / Adapter lead
Startup Kit Cost	
	\$ 120.00

Full Kit Contents

The Full Kit includes the complete receiver ready airplane. This can be used to build a complete plane after a pilot has been registered.

Qty.	Description
1	Depron Foam Airframe with CF reinforcement, decals and markings
1	Hardware Kit (Motor mount, control horns, pushrods, ez-links, etc.)
3	Servos
1	Motor
1	ESC
1	Spinner
Full Kit Cost	
	\$ 75.00

Short Kit Contents

The Short Kit is the complete kit without motor, ESC, spinner and Prop. If your original plane were to get in a crash, this kit will allow you to get back into the air with just one screw for the motor and by moving your receiver and ESC.

Qty.	Description
1	Depron Foam Airframe with CF reinforcement, decals and markings
1	Hardware Kit (Motor mount, control horns, pushrods, ez-links, etc.)
3	Servos
Short Kit Cost	
\$ 55.00	

Airframe Only Contents

This is the foam airframe only; you can use this to rebuild your airplane.

Qty.	Description
